# Evidence-Based Programs Title IV-E Clearinghouse Crosswalk

**Purpose:** The purpose of this resource is to help jurisdictions capture and organize relevant information about potential evidence-based prevention programs to inform intervention selection for the title IV-E prevention services plan (Prevention Plan). This document is designed to organize programs on the title IV-E Prevention Services Clearinghouse based on candidacy populations the jurisdiction identifies as a priority for prevention services (priority populations). Priority populations should be identified through stakeholder feedback and qualitative and quantitative data analysis designed to identify which children are at risk of entering foster care and the families that are most likely to benefit from receiving prevention services.

**Directions:** Complete one table for each of the priority populations identified through data analysis for inclusion as *candidates* in the Title IV-E prevention plan. Each row in the table should include programs that match the priority population identified either through the EBP target population or the risk factors the EBPs address.

There are several factors to consider when reviewing the programs in the EBP Title IV-E Crosswalk, including but not limited to:

- Degree of relevance and alignment of the EBP with the jurisdiction's target population and known risk factors for removal

- Alignment of the program goals with the jurisdiction's broader vision for prevention and building caregivers' protective capacities

- Existing and potential provider capacity within the jurisdiction

- CQI and evaluation capacity

- Capacity to conduct an independent systematic review for EBPs not yet rated by the Title IV-E Prevention Services Clearinghouse

For more information contact us at FamilyFirstChapin@Chapinhall.org.

**Priority Population:** _____

| Program | Target Population of the EBP | Program Goals | Risk Factors & Title IV-E Clearinghouse Rating | | | | | # Provider Locations Identified in the Jurisdiction |
|---|---|---|---|---|---|---|---|---|
| | | | Parent SUD ✔ | Parent MH ✔ | Youth SUD ✔ | Youth MH ✔ | Parent Skill Based ✔ | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |
| | | – | | | | | | |

**EXAMPLE: Priority Population: __Children under five years old_____**

| Program | Target Population of the EBP | Program Goals | Relevant Risk Factors & Clearinghouse Rating | | | | | # Provider Locations Identified in the Jurisdiction |
|---|---|---|---|---|---|---|---|---|
| | | | Parent SUD | Parent MH | Youth SUD | Youth MH | Parent Skill Based | |
| Child-Parent Psychotherapy (CPP) | **Children age 0-5**, who have experienced a trauma, and their caregivers | – Support family strengths and relationships,<br>– Help families heal and grow after stressful experiences<br>– Respect family and cultural values | | ✔<br>promising | | | | **20** |
